care assistant

eevi Samsung Active 2 Smart Watch

Care if you need it, peace of mind when you don't

The eevi Samsung Active 2 Smart Watch provides access to 24/7 emergency response support with a stylish yet discreet solution for extra care while out and about. The SmartWatch is worn just like a regular watch and can go wherever you go. The eevi difference is that it provides 24/7 emergency assistance at the push of a button connecting you to a dedicated monitoring centre, meaning that help is always nearby.

The discreet monitoring watch works wherever there is 4G connectivity. The device offers two-way communication and functions just like a mobile phone for accessible communication and support if ever it's needed.

Professional monitoring

The professionally monitored service connects the user to a 24/7 emergency response centre that guarantees 95% of calls will be answered and responded to within 60 seconds or less at any time of the day. Having this type of system ensures that help is always there at the push of a button.

How does the eevi Smart Watch work?

STEP 1:

Press the red button on the side for help.

Announcement heard, alerting you to call connection/request status

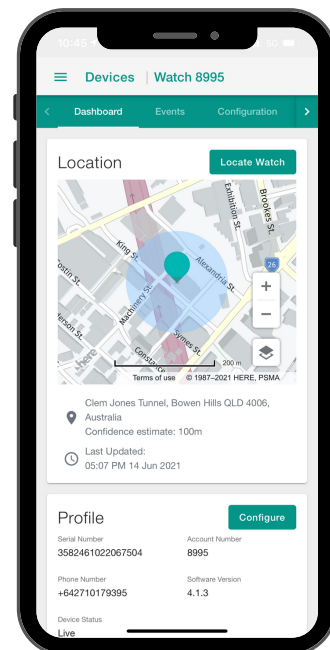

STEP 2:

Connection to 24/7 emergency help with GPS location tracking

STEP 3:

2-way communication for triage of emergency with updates through Friends and Family app

Integration to Friends & Family mobile application

The Samsung Active 2 Smart Watch provides important information on the location of the watch for a primary carer through GPS location tracking.

This device can additionally be enabled to send push notifications or messages to a carer when a battery device is low or if a device goes offline.

The Friends & Family app also provides notifications when an alert has been triggered ensuring support can be notified through multiple channels.

Eevi products are designed to help you maintain your independence, which is why we choose everyday devices that are simple to use. Our goal is to provide you with the best technology solutions to enhance your lifestyle.

We love to hear your comments and any feedback.
